STOCK MARKET NERVOUS

ALARM OVER THE SITUATION IN SAMOA.

Market Was Unsettled and Fluctuations Irregular—Nearly Half the Total Transactions Consisted of Three Stocks—Railways Were Affected by the Advance in Money.

New York, March 30.—The movement in stock prices today was very irregular, with not much change mixed, but with some slight predominance. Three stocks, Federal Steel, Brooklyn Transit and Manhattan, figured for nearly half the total sales on the exchange, which were not much below a million. Pears of trouble over the Samoan situation gave a generally easier tone to the stock market, which subsequently advanced under the leadership of the Flower stocks and Manhattan and Sugar, but later eased off again on the very high rate for money, 12 per cent being charged before the close for call loans. The banks early in the day advanced the call rate to 6 per cent. Many brokers and traders had made early provision for loans which carried them over until Monday. On the stock exchange the rate advanced to 12 per cent, and the last loan was 12 per cent. The fluctuations were reflected in the bond market, and nervous movements in many stocks.

Washington advices that the Samoan situation was becoming more serious, with the conflict multiplying of some of the specialties were coincident with the advance in the call rate.
